Dear Mayor Lockwood, and Council Members D'Aversa, Hewitt, Lusk, Tart, Thurman and Bailey,

First of all let me say what a pleasure it was to work with the Mayor and Council at your 2009 planning retreat earlier this week at Stone Mountain. You are to be commended for your thoughtful deliberations regarding the future of your city. I appreciate the strong convictions each of you has for your city and the passion you have for creating a city of distinction.

As you move forward, I offer the challenge of continuing to place more authority in the capable hands of your Manager, Chris Lagerbloom, and allow him to manage operations and particularly the responsibilities of managing the contracts with your partners. Each of you are clearly wanting only the best and most responsive services possible, but another challenge will be to continue that in vein but being patient and understanding that serving a population of 30,000 residents is no easy task especially for a city still in its infancy with so few full time city staff fully committed to the City. I also challenge you to move deliberately in transitioning to the city providing some services currently being provided by a contractor understanding and keeping in mind the current fiscal and capacity limitations. All transitions are times when things can get confusing and frustrating for all involved and patience will be needed along with really good communications; both internally and externally. No doubt the City of Milton is destined to greatness and I will continue to look for good news coming from the City of Milton.

I think it will also be important to regularly revisit the list of needs and expectations of each other you identified as being required for the Council to be successful – those items you listed don't come easy but can be lost instantly so I encourage each of you to visit the list regularly and self assess your own and your councils' success and take time to appropriately address those times when the expectations and needs are not being met

This document serves as my summary report of the deliberations of the City of Milton May 3 - 4, 2009 planning retreat. We at The Carl Vinson Institute of Government appreciate you choosing us to help you with your planning efforts. I hope we have the chance to serve you again in the near future. If you wish to have a facilitated follow-up session in the fall as seemed to be consensus, feel to call and allow us to assist.

Sincerely,

Gordon Maner, Manager
Local Programs
